CONTENTS VOLUME 24, 1985

Research Papers

Quantifying chemical changes in hydrothermally altered volcanic sequences — silica enrichment as a guide to the Crandon massive sulfide deposit, Wisconsin, U.S.A.
N.G. Lavery (Houston, Texas, U.S.A.). 1

Helium, carbon dioxide and oxygen soil gases: small-scale variations over fractured ground
R.G. Gregory and E.M. Durrance (Exeter, Great Britain). 29

A study of the soil geochemistry of the Platreef in the Bushveld Complex, South Africa
C. Frick (Pretoria, South Africa) 51

Evaluation of lead isotopic methods for uranium exploration, Koongarra area, Northern Territory, Australia
B.L. Dickson and B.L. Gulson (North Ryde, N.S.W., Australia), and A.A. Snelling (Runcorn, Qld., Australia) 81

Drainage sampling for uranium in the Torrington District, New South Wales, Australia
A.K. Ishak and A.C. Dunlop (Kensington, N.S.W., Australia) 103

Possible errors in helium analyses of soil gases by mass spectrometers having constant-pressure inlet systems
M.K.W. Hart, M.J. Gole and C.R.M. Butt (Wembley, W.A., Australia) 121

Discussion

Gases and trace elements in soils at the North Silver Bell deposit, Pima County, Arizona — Discussion
C.R.M. Butt, M.K.W. Hart and M.J. Gole (Wembley, W.A., Australia) 129

Gases and trace element in soils at the North Silver Bell deposit, Pima County, Arizona — Reply
M.E. Hinkle and G.M. Reimer (Denver, Colo., U.S.A.) 134

Announcement 139

Research Papers

Helium in soil and overburden gas as an exploration pathfinder — an assessment
C.R.M. Butt and M.J. Gole (Wembley, W.A., Australia). 141

A comparative study of stream water and stream sediment as geochemical exploration media in the Rio Tanama porphyry copper district, Puerto Rico
R.E. Learned, T.T. Chao and R.F. Sanzolone (Denver, Colo., U.S.A.) 175

Iron-rich veins related to structural lineaments, and the search for base metals in Israel
S. Ilani (Jerusalem, Israel), J. Kronfeld and A. Flexer (Ramat Aviv, Israel) 197

Adjustment of geochemical background by robust multivariate statistics
Di Zhou (Guangdong, P.R. China) 207

Botanical and geochemical exploration studies at the Seruwila copper-magnetite prospect in Sri Lanka
R.R. Brooks (Palmerston North, New Zealand), A.J.M. Baker (Sheffield), R.S. Ramakrishna (Colombo, Sri Lanka) and D.E. Ryan (Halifax, N.S., Canada) 223

Gold, silver and other elements in aquatic bryophytes from a mineralised area of North Wales, U.K.
K.C. Jones (Lancaster, U.K.) 237

Geochemical alteration halos around the Mount Morgan gold-copper deposit, Queensland, Australia
M.A.F. Fedikow (Winnipeg, Man., Canada) and G.J.S. Govett (Kensington, N.S.W., Australia) 247
Delineation of the potentially auriferous quartz reefs by analysis of the bark of *Pinus radiata* (Monterey pine)
S. Goff (Los Alamos, N.M., U.S.A.), R.R. Brooks and S.D. Naidu (Palmerston North, New Zealand), and E. Coppard (Waihi, New Zealand) 273
The use of plants in prospecting for gold: a brief overview with a selected bibliography and topic index
J.A. Erdman and J.C. Olson (Denver, Colo., U.S.A.). 281
Evaluation of drilling priorities using lead isotopes at the Lady Loretta lead-zinc-silver deposit, Australia
M. Vaasjoki and B.L. Gulson (North Ryde, N.S.W., Australia) 305
Lithology and trace-metal content in till in the Kuhmo granite-greenstone terrain, eastern Finland
M. Saarnisto and K. Taipale (Oulu, Finland). 317
